In the gaming industry, these racing games are like an athletics athlete. It's strong, long-lasting, moving on and trying to make advances. In terms of entertainment, these racing games are a very good complement to the entertainment industry of the automotive industry. Dubai Drift 2 also has major advances in in addition to creating a healthy and attractive gaming environment for many enthusiasts of this sport. Graphics - the strongest point that Drift 2 has so far In fact, for a racing game, its graphics almost occupy a huge position that determines the success of this product in the future. You can see the big guys producing famous names like Asphalt, Need For Speed trying to use their potential graphical upgrade points. Dubai Drift 2 succeeds in racing to create extremely stressful car racing. Surreal graphics allow players to get the most out of what you expect from a racing game. In addition to the extremely elaborate background, the vehicle system of this game also makes many people feel attractive. The extremely famous super sports designed specifically for this game. Even cheap but ordinary cars are designed with high definition and originality. Players will be completely satisfied with what this game gives them. Familiar controls for easy mastery Basically, the controller of this game makes it possible for players to adapt to the pace of the game in the game. Its usefulness allows players to manipulate quickly and without difficulty. Even if you're not familiar, you can easily customize it in settings. On the left side of the screen is a steering wheel that allows the player to control the direction of the vehicle. When entering the game, your car automatically runs forward so that everything becomes much simpler. Try not to touch obstacles and do not cause accidents, which will slow you down. The inevitable result is that you lose. On the right side of the screen are tools that you can use to speed up or slow down. In addition, there will be a clock to measure your speed during the change. Try to keep the speed stable, it doesn't have to be too fast. Because if you reach full speed, it is very likely that it will cause an accident and be in a collision with other cars. In addition, at the top of the screen are indicators to show your position on the train, the registration function and other indicators that do not affect much during your race. Several racing floors, allowing players to venture around the world In the first race, you will participate in Dubai. The most expensive and powerful super sports cars participate in this race. However, as you reach higher levels, things will change. Players will be able to venture to many other places to challenge opponents. They will be the best riders and there will be no mercy in this competition. The first challenges will not be very difficult. Therefore, you can overcome it gently. With the money that can be earned with victory, you can keep it to do useful things later. Because when you have to face the best opponents, it is difficult to reach the championship. One piece of advice is to increase the power of your car as quickly as possible. Do not try to accumulate words

to buy cars that are very expensive because during that time and will fight with difficult races. Recording - the last As an interactive television program, experience in sharing Dubai Drift 2 gives you the latest experience, allowing you to to your friends thanks to the recorded videos. Back to your race. Players just need to press a simple button on the screen and everything will be saved. However, this feature is popular in all popular games. Dubai Drift 2 allows the player to edit the video immediately. In the game, this feature is called Director Mode. Unique effects such as TV, LED, 3D, X PRO II, etc. will appear in the game as well as the filters commonly used in photo editing applications.
